

DOUGLAS COUNTY TIMBER SALE PROSPECTUS NOTICE OF SEALED BIDS

JUNE 23, 2015

Forest Stewardship Council™ (certificate #SCS-FM/COC-00083G-S)
The Mark of Responsible Forestry – FSC 100%

Sustainable Forestry Initiative® (certificate #NSF-SFIS-1Y943)
Promoting Sustainable Forest Management

The Douglas County Forest, Parks and Recreation Committee will receive sealed bids for the purchase of the designated stumpage on the enclosed tracts until 5:30 p.m. Tuesday, June 23, 2015 at the Douglas County Forestry Department, 9182 East Hughes Avenue, P.O. Box 211, Solon Springs, WI 54873. Bids will be opened and read at 6:00 p.m. Tuesday, June 23, 2015 at the Forestry Department Headquarters, 9182 East Hughes Avenue, Solon Springs, WI 54873.

Douglas County will award Contracts to the acceptable highest bidder pending verification and approval of each winning bid. In the event of tie bids, the successful bidder will be determined by the toss of a coin by the acting Chairperson of the Douglas County Forest, Parks, and Recreation Committee. No late bids will be considered. No bid will be considered from bidders who are in non-compliance with any current timber sale Contract with Douglas County, are delinquent in their financial obligations to Douglas County, are involved with a pending timber theft or trespass with the County, or from a bidder whose bidding privileges have been either temporarily or indefinitely revoked by the County.

Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County. For further information, bid forms, maps, or a sample Contract; please contact the Douglas County Forestry Department at (715) 378-2219.

NOTICES:

Daily Telegram – June 2, 12 & 16, 2015

Northwoods Shopper – June 12, 2015

I. BIDDING: It is the responsibility of the bidder to inspect; evaluate the stumpage, examine the locations, investigate field conditions, and check Contract requirements for each tract prior to bidding. Bidders should contact the “Prepared By” individual at (715) 378-2219 on the enclosed tracts for detailed information regarding each tract. Submission of bid reflects that the bidder has inspected the tract and clearly understands and agrees to all Contract conditions and requirements herein.

Bids for individual tracts must each be submitted on a standard “Douglas County Forestry Department Bid for Advertised Timber” form, indicating correct tract number, and be presented in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)”. An online version of the bid form reducing the chances for errors is also available at www.douglascountywi.org/forestry. Forms must be completed legibly and correctly in their entirety with all requested information required for bid consideration.

Bids must be submitted separately for each tract by indicating the advertised species, the advertised species product volume, a per product bid price for each species advertised, a total bid value for each species and product advertised, and a total tract bid value for all species and products advertised using the corresponding locations on the bid form.

Considered bids must meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed.

Bids below the minimum advertised total tract value for each species and product listed, the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

The use of an off-highway-vehicle (ATV or snowmobile) on routes or areas closed to motorized use must be approved by the Douglas County Forestry Department prior to occurrence or the operator is subject to penalty as provided by County Ordinance. If granted, permission will be authorized for pre-bidding inspection purposes only and operators shall operate in a safe, responsible, and environmentally friendly fashion. Contact the Department at (715) 378-2219 for further information.

II. BID GUARANTEE BOND: A bid guarantee for a minimum of 10-percent of the total tract bid value must accompany each bid for an individual tract as a bid guarantee bond, payable to Douglas County Forestry Department.

The bid guarantee bond must be in the form of cash, cashiers check, certified check, money order, bank draft, personal check, or business check unless otherwise specified by the County; must be covered by sufficient funds in the account on which it is drawn once submitted to the County, and remain in effect until the Contract is executed by all parties. The County reserves the

right to investigate sufficient funds coverage on any bid guarantee bond provided. In the event that the bid guarantee bond is not covered by sufficient funds, the bidder will be forbid from being awarded the Contract.

The bid guarantee bond will be held by the County until replaced by the successful bidder's performance bond. Bid guarantee bonds will be returned to unsuccessful bidders.

Failure by the successful bidder to provide the County with the mandatory executed Contract of sale, performance bond, current certificates of insurance, and current SFI training certificate equivalent to those conditions provided below within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

III. PERFORMANCE BOND: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a performance bond in the amount of 20-percent of the total purchased tract value. Such a performance bond shall be submitted to the County for approval in the form of cash bond, written performance bond (surety bonds will not be accepted), or irrevocable letter of credit. The County reserves the right to limit the form of acceptable performance bond. The Purchaser must indicate on the bid form what form of performance bond will be provided to the County.

In the event that a cash performance bond is indicated on the bid form, the bid guarantee bond will be deposited immediately and applied towards the performance bond. The balance of the cash performance bond is to be provided by the successful bidder pursuant to those conditions provided above.

In the event that a written performance bond or irrevocable letter of credit is indicated on the bid form, the successful bidder will provide the County a written performance bond (surety bonds will not be accepted) or irrevocable letter of credit issued by a bank or insurance company which is a member of the Federal Reserve System or insured by the Federal Deposit Insurance Corporation pursuant to those conditions provided above. The written performance bond or irrevocable letter of credit shall have an expiration date of no less than 30 calendar days past the sale expiration date.

Failure by the successful bidder to provide the County with the mandatory amount and form of performance bond equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

IV. LIABILITY INSURANCE: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of insurance from the insurer(s) of the successful bidder or their agents certifying coverage to the limit of \$500,000.00 per occurrence and \$1,000,000.00 per aggregate. Such certificate shall name the County as an additional insured and shall be submitted to the County for approval of the insurer(s), the amount, and the form. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

V. WORKERS' COMPENSATION INSURANCE: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of insurance verifying workers' compensation coverage or proof of exemption from such coverage as provided by law. Such written certificate or verification shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or written verification or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance for workers' compensation coverage or exemption from such coverage as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VI. SFI TRAINING STANDARD: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall

receive a valid certificate of completion for the current Wisconsin Sustainable Forestry Initiative (SFI) training standards or comparable certification training standards of different States (depending on the successful bidder's address of its principle place of business) as approved by the Forest Industry Safety & Training Alliance (FISTA) which can be contacted at 1-800-551-2656. Such certificate shall be in the name of the individual responsible for signing the Contract on behalf of the successful bidder, or the president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder; and shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine training records itself.

Failure by the successful bidder to provide the County with the mandatory certificate of completion for the current SFI training standards as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VII. CONTRACT EXECUTION: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive the original Contract with all required information completed with the original signature of a president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder.

Failure by the successful bidder to provide the County with the Contract as indicated above or with an incomplete, illegible, or incorrect Contract within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VIII. PAYMENT SCHEDULE: Payment of the initial advance stumpage payment or lump sum payment, is required prior to the commencement of any Contract operations other than road and landing construction activities. Removal of any products prior to receipt of the initial advance stumpage payment or lump sum payment by the County will be treated as harvested without the County's consent or permission and subjects the Purchaser to civil and/or criminal penalties provided under Douglas County Ordinance #7.6.

The second and subsequent increment installment payments will be due to the County at the point the value of all products removed from the sale reaches 75-percent of the credit on deposit. In no event will payments due be made by the Purchaser to the County more than 15 calendar days from the date of invoice. The County reserves the right to place additional payment requirements on the Purchaser to protect its best interests or those best interests of the public.

The following plan is used by the County to determine the increment schedule required on the enclosed tracts, unless otherwise specified by the County:

Total Contract Purchase Value	Increment Schedule
Lump Sum	100% Payment or Per Harvest Unit (See Tract Specs)
UP to \$5,000.00	100% Payment
\$5,000.01 to \$10,000.00	50% Payment
\$10,000.01 to \$150,000.00	10% Payment
\$150,000.01 and OVER	5%(2),10%(9) Payment

IX. PRODUCT STANDARDS: Standard advertised products are as follows:

- 4" Roundwood Product - A tree, log or stick with a minimum of one 100-inch stick to a 4-inch top diameter.
- Whole-tree Product - All or any woody material from the sheared butt stump of all 2-inch and greater DBH trees to the tip of the tree, including all logs, sticks and branches originating from any stem associated with the tree.
- Softwood Sawlog Product - A tree, log or stick 9-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal "C" net scale greater than or equal to 50% of gross scale for the log.
- Hardwood Sawlog Product - A tree, log or stick 10-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal "C" net scale greater than or equal to 50% of gross scale for the log.

X. VOLUME AND WEIGHT STANDARDS: The enclosed volumes/weights of products by tract are estimates. The County provides no warranty or guarantee as to the species, product type, quality, quantity, or condition. The bidder is responsible for making these determinations and bidders should inspect and evaluate the timber contained in the enclosed tracts prior to bidding. Standard advertised volume/weight measures are as follows:

- A standard cord is a volume of stacked wood products including air space occupying 128 cubic feet.

- A standard MBF is a volume of wood products totaling 1,000 board feet. MBF volume shall be determined using the Scribner Decimal “C” log rule.
- A standard ton is a unit of weight measure equal to 2,000 pounds (907.18 kilograms).

XI. ACCESS: The Purchaser is required to complete all road construction requirements for the enclosed tracts. Location of all road, transportation, and access routes, including associated infrastructure components, for the enclosed tracts are designated by the County and are limited to what is displayed on the maps and in the Contract conditions. The County does not conduct road appraisals. All road and infrastructure construction cost estimates and actual expenses are the responsibility of the Purchaser and bidders should inspect and evaluate these based on Contract requirements and field conditions prior to bidding.

XII. EXTENSIONS: It is expressly understood by the bidder that Contract extensions are not guaranteed and full performance on a Contract is expected prior to the initial expiration date.

XIII. COMMENCEMENT OF OPERATIONS: Operations may not commence on any tract before all Contract execution, insurance, SFI training, financial, and additional required conditions have been successfully met by the Purchaser and approved by the County.

XIV. RECEIPT OF REQUIREMENTS: The bidder and/or successful bidder bears all responsibility for postal or delivery delays outside of the County’s control for all requirements to be received by the County prior to bid consideration and/or Contract execution, including but not limited to; the bid, the bid guarantee bond, the performance bond, liability insurance, workers’ compensation insurance, SFI training standard, the Contract, payments, and all other correspondence, documents, and requirements.

XV. DIRECT SALES: Periodically Douglas County will offer direct stumpage sales. Direct sales are available on a first come, first served basis with the sale offered at or above the total appraised value with no percentage reductions, according to the WDNR Timber Sale Handbook. Please contact the Douglas County Forestry Department at (715) 378-2219 for direct sale availability and/or additional information.

XVI. IRRESPONSIBLE BIDDER: A bidder deemed by the County to be an irresponsible bidder may be refused the opportunity to bid upon or obtain Douglas County timber sales for a pre-determined set time period as determined by the County or indefinitely as deemed in the best interest of the County.

XVII. FOREST CERTIFICATION: The Douglas County Forest, including the areas encompassed by the enclosed tracts, is certified to the standards of the Forest Stewardship Council™ (FSC certificate #SCS-FM/COC-00083G-S) and the Sustainable Forestry Initiative® (SFI certificate #NSF-SFIS-1Y943). Forest products harvested from the Douglas County Forest may be delivered to the destination facility as “FSC™ and/or SFI® certified” as long as the Contractor hauling the forest products is chain-of-custody (COC) certified or covered under a COC certificate from the destination facility. The Purchaser assumes all responsibility for maintaining COC after leaving the area encompassed by any individual tract.

XVIII. EAB QUARANTINE: As of August 2013, all of Douglas County has been placed under a Wisconsin Department of Agriculture, Trade, and Consumer Protection (DATCP) and United States Department of Agriculture (USDA) quarantine for Emerald Ash Borer (EAB). Quarantine compliance, including rules and regulations regarding the transport and utilization of ash products, is the full responsibility of the Purchaser. For additional information on the quarantine, including compliance agreements, please contact DATCP at 608-224-4573 and/or the USDA-APHIS at 608-231-9553.

XIX. TRUCK HAULING INFORMATION: The number of Douglas County townships that have developed or are in the process of developing additional policies in the form of regulations to protect their investments in and limit damage caused by heavy equipment to their local township roads continues to increase. The Douglas County Forestry Department has taken an active role in working with these townships in an attempt to alleviate concerns. The Department believes that their intent is not to restrict harvesting and subsequent hauling of timber, but a response to repetitive and inappropriate use by heavy trucks and equipment. Hauling Contractors need to be aware that public relations are vital to their business and inconsiderate and inappropriate actions reflect poorly on all of us in the forest industry.

All required permits and conditions for use of any public roadways other than those managed by the Douglas County Forestry Department are the responsibility of the Purchaser to obtain, keep current, and comply with. The County bears no responsibility or assures guaranteed use of any public roadway outside of its scope of authority used for the purpose of accessing any of the enclosed tracts and any additional requirements, restrictions, conditions, or terms enacted by any roadway authority are the

responsibility of the Purchaser. The County recommends contacting the appropriate roadway authority prior to bidding on any of the enclosed tracts.

Below are the town chair contact information for each township and one village that contain Douglas County forest and special use land within their boundaries. Contacts for the Douglas County Highway Department and the Forestry Department are also included. Bidders should refer to this information as they prepare bids for the enclosed tracts. This information is up-to-date and current at the time of printing this prospectus only, please contact the town/village, Sale Administrator, or see the “Official E-Directory” link on the Douglas County website www.douglascountywi.org for updates and/or additional information.

TO DOUGLAS COUNTY FOREST, PARKS, AND RECREATION COMMITTEE:

Submitted in response to the notice of Timber Stumpage for Sale published in the Daily Telegram on June 2, 12 & 16, 2015 and the Northwoods Shopper on June 12, 2015, I hereby submit the following bid for the advertised timber stumpage to be cut and sold from Douglas County lands described as follows:

– See reverse side of form for instructions on how to complete –

A	B	C	D	E	F	G	H
SPECIES	Estimated Volume in 4" Cords	Bid Price Per 4" Cord	Estimated Volume in Whole-tree Cords	Bid Price Per Whole-tree Cord	Estimated Volume in Sawlogs MBF	Bid Price Per Sawlog MBF	Total Bid Value by Species & Product
Total Tract Bid Value							

Enclosed is a Bid Guarantee Bond drawn payable to Douglas County Forestry Department to accompany this bid as required, in the amount of:

Bid Guarantee Bond Amount 10% of the Total Tract Bid Value	
--	--

In the form of: Cash Business/Personal Check Cashier's/Certified Check Money Order

If declared the successful bidder for this tract, I agree to execute a Contract of sale, furnish a satisfactory performance bond amounting to 20-percent of the total tract bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date or prior to the commencement of any operations.

If declared the successful bidder for this tract, indicate whether you will be providing a cash performance bond, an irrevocable letter of credit, or a written performance bond (surety bonds will not be accepted).

Cash Performance Bond
 Irrevocable Letter of Credit or Written Performance Bond

Bids will be awarded based on the total tract bid value, providing all individual bids meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed; in addition to all other requirements being met. Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County.

Instructions on how to complete the Bid Form

- (1) Enter the individual tract number at the top right of the Form.
- (2) Enter the tract's advertised species, product volumes, and bid amounts in the table as follows:
 - (a) For Ticket Scale Tracts:
 - Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
 - Column B - If bidding on advertised 4" Roundwood Cords, list Estimated Volume in 4" Roundwood Cords from the Timber Sale Map per Species.
 - Column C - If bidding on advertised 4" Roundwood Cords, enter your Bid Price Per 4" Roundwood Cord per Species.
 - Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
 - Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
 - Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
 - Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
 - Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
 - Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.
 - (b) For Lump Sum Scale Tracts:
 - Write the words "LUMP SUM" once in column A (under Species).
 - Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

* For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.
- (3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.
- (4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.
- (5) Mark the type of organization or entity that you are bidding on behalf of.
- (6) At the bottom of the Form, print your name, your title, the organization's name you are bidding on behalf of, your affiliated organization's or your address, your contact phone number (please include multiple numbers if appropriate), and email address.
- (7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.
- (8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked "**Sealed Timber Bid Tract (include tract number)**" and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

– The Bid Form MUST BE completed in its entirety –

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

Instructions on how to complete the Bid Form

- (1) Enter the individual tract number at the top right of the Form.
- (2) Enter the tract's advertised species, product volumes, and bid amounts in the table as follows:
 - (a) For Ticket Scale Tracts:
 - Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
 - Column B - If bidding on advertised 4" Roundwood Cords, list Estimated Volume in 4" Roundwood Cords from the Timber Sale Map per Species.
 - Column C - If bidding on advertised 4" Roundwood Cords, enter your Bid Price Per 4" Roundwood Cord per Species.
 - Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
 - Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
 - Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
 - Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
 - Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
 - Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.
 - (b) For Lump Sum Scale Tracts:
 - Write the words "LUMP SUM" once in column A (under Species).
 - Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

* For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.
- (3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.
- (4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.
- (5) Mark the type of organization or entity that you are bidding on behalf of.
- (6) At the bottom of the Form, print your name, your title, the organization's name you are bidding on behalf of, your affiliated organization's or your address, your contact phone number (please include multiple numbers if appropriate), and email address.
- (7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.
- (8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked "**Sealed Timber Bid Tract (include tract number)**" and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

– The Bid Form MUST BE completed in its entirety –

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

TRACT 10-15 (MOOSE LAKE CLEAN-UP) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Harvest unit 1 has an overstory removal harvest prescription with an estimated average residual basal area of 1ft².
- Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 4ft².

B. SEASONAL RESTRICTIONS -

- In both harvest units, all harvesting operations shall be limited to frozen ground conditions only.
- The 1,800 feet of "Class 2" upgrade road construction and crossing operations shall be limited to non-frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- In harvest unit 1, fell, skid, and haul all aspen, red oak, white birch, red maple, black ash, basswood, and balsam fir stems that meet the product and utilization standards as per product bid.
- In harvest unit 2, fell, skid, and haul all aspen, white birch, red maple, black ash, balsam fir, and white spruce stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- In harvest unit 1, reserve and leave undamaged all white pine stems and all advanced regeneration.
- In harvest unit 2, reserve and leave undamaged all white pine, red pine, jack pine, and tamarack stems; and all advanced sub-merchantable balsam fir, white spruce, white birch, and tamarack regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- In harvest unit 1, all harvesting operations shall be limited to short-wood/cut-to-length processor and forwarder operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller buncher felling equipment (hot saw type or similar) is prohibited.
- In harvest unit 2, all harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
- In harvest unit 1, operations shall minimize to the greatest extent possible any damage to advanced regeneration. The sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas.
- "Slashing Maintenance" is required for harvest unit 2.
- In harvest unit 1, one skid trail crossing shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
- Up to six landing locations are permitted as designated.

F. ACCESS AND ROADS -

- No new access roads shall be constructed.
- The total length of the existing "Class 3" access road system is approximately 2,640 feet. Portions may require minimal reconstruction before use.
- 1,800 feet of the existing "Class 3" access road will require "Class 2" upgraded construction.
- One permanent "Culvert Crossing" shall be constructed as designated. Please see contract attachment.
- Two "Earth Berms" shall be installed as designated.

G. OTHER -

- 1-year term of contract.
- The Red Oak cord volume contains approximately 35% sawlog size material.

TRACT 02-15 (BIRDS AND BEAVERS) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Clear-cut harvest prescription with an estimated average residual basal area of 6ft².

B. SEASONAL RESTRICTIONS -

- All harvesting operations are not restricted by season or time of the year on an estimated 60% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only; on an estimated 40% of the harvest area (lowlands).

C. TREES DESIGNATED FOR CUTTING -

- Fell, skid, and haul all sugar maple, red maple, basswood, aspen, white birch, black ash, white ash, yellow birch, ironwood, cherry, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- Reserve and leave undamaged all red oak, scrub oak, elm, cedar, white spruce, balsam fir, and white pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- "Slashing Maintenance" is required.
- Two landing locations shall be identified during the pre-operations meeting.
- Access road system may be utilized for product decking.

F. ACCESS AND ROADS -

- The total length of the access road system is approximately 3,000 feet. Approximately 1,500 feet of existing access road and 1,500 feet of new access road.
- Portions of the 1,500 feet of existing access road may require minimal "Class 3" reconstruction before use.
- The entire 1,500 feet of new access road will require "Class 3" new construction.

G. OTHER -

- A gravel approach to the County Highway shall be installed as directed by the Sale Administrator.
- A transmission line and associated right-of-way is located directly adjacent to the harvest unit alongside County Highway M.

TRACT 45-14 (SOUTHSHORE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- On uplands, clear-cut harvest prescription with no estimated average residual basal area.
- On lowlands, clearcut with reserves harvest prescription with an estimated average residual basal area of 9ft².

B. SEASONAL RESTRICTIONS -

- All harvesting operations are not restricted by season or time of the year on an estimated 60% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only; on an estimated 40% of the harvest area (lowlands).
- All road construction operations shall be limited to non-frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- On uplands, fell all aspen, white birch, red maple, ash, balsam fir, white spruce, and miscellaneous species stems; all marked red pine stems, and all non-marked red oak stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
- On lowlands, fell all ash stems; and all balsam fir, black spruce, and tamarack stems that contain at a minimum, one 4" Roundwood Product. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- On uplands, reserve and leave undamaged all non-marked red pine stems (within the 1 acre red pine plantation) and all marked red oak stems.
- On lowlands, reserve and leave undamaged all cedar and non-ash hardwood stems; and all balsam fir, black spruce, and tamarack stems that do not contain at a minimum, one 4" Roundwood Product.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- On uplands, "Complete Vegetation Maintenance" excluding uprooting, is required with the objective to kill the above ground portion of the plant. Below ground portions shall be protected.
- On lowlands, "Slashing Maintenance" is required for all black ash stems.
- On lowlands, minimize machine operations on the root systems of all reserve species, especially white cedar. In areas with dense pockets of white cedar, reserve and leave undamaged all cut species stems to protect the white cedar stems.
- Up to six landing locations are permitted as designated.

F. ACCESS AND ROADS -

- No new access roads shall be constructed.
- All vehicular access (in and out) to all harvest units shall be from the south off South Shore Grade with no access provided off County Highway P.
- The total length of the existing access road system is approximately 11,375 feet.
- Portions may require minimal "Class 3" reconstruction before use.
- The access road is gated where it intersects the snowmobile trail.
- Two "Earth Berms" are located on the access road and shall be reinstalled at a location designated by the Sale Administrator.
- Portions of the access road system utilize a winter snowmobile trail.

G. OTHER -

- Note skidding distances.
- Protect designated survey monuments.

TRACT 16-15 (WRIGHT WAY) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Seed tree harvest prescription with an estimated average residual basal area of 14ft².

B. SEASONAL RESTRICTIONS -

- All harvesting operations are not restricted by season or time of the year.
- All road construction operations shall be limited to non-frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- Fell all non-marked red oak, aspen, white birch, red maple, sugar maple, basswood, balsam fir, and miscellaneous hardwood species stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- Reserve and leave undamaged all red pine, white pine, and white spruce stems; and all marked species stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- "Complete Vegetation Maintenance" excluding uprooting, is required for all hardwood species stems and balsam fir stems with the objective to kill the above ground portion of the plant. Below ground portions shall be protected.
- Two landing locations are permitted as designated.

F. ACCESS AND ROADS -

- The total length of the access road system is approximately 5,080 feet. Approximately 4,580 feet of existing access road and 500 feet of new access road.
- Portions of the existing access road may require "Class 3" reconstruction before use.
- The entire 500 feet of new access road will require "Class 3" new construction.
- Three existing "Culvert Crossings" on the access road will require covering/lifting with an additional 10-20 yards of hauled fill per each crossing, to be evenly spread across the entire length of each crossing. Contact the Sale Administrator for further information.
- The access road utilizes a winter snowmobile trail.
- The access road is gated at County Highway F.
- "Scattered Blockage Debris" is required for the new access road where it spurs off the existing snowmobile trail.

G. OTHER -

- The Red Oak cord volume contains a high percentage of sawlog and sawbolt size material.

TRACT 44-14 (HWY L OAK) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- On uplands, seed tree harvest prescription with an estimated average residual basal area of 28ft².
- On lowlands, clearcut with reserves harvest prescription with an estimated average residual basal area of 4 ft².

B. SEASONAL RESTRICTIONS -

- All harvesting operations are not restricted by season or time of the year on an estimated 70% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only; on an estimated 30% of the harvest area (lowlands).
- All road construction operations shall be limited to non-frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- Fell all non-marked red oak, white birch, aspen, red maple, sugar maple, basswood, and miscellaneous hardwood species stems; and all balsam fir, black spruce, and tamarack stems that contain at a minimum, one 4" Roundwood Product. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- Reserve and leave undamaged all red pine, white pine, and white spruce stems; all marked species stems; and all balsam fir, black spruce, and tamarack stems that do not contain at a minimum, one 4" Roundwood Product.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- On uplands (approximately 45 acres along County Highway L), "Complete Vegetation Maintenance" excluding uprooting, is required for all hardwood stems with the objective to kill the above ground portion of the plant. Below ground portions shall be protected. Contact the Sale Administrator for further information.
- Spruce and tamarack slash shall remain within the areas where these species were harvested.
- Four landing locations are permitted as designated.

F. ACCESS AND ROADS -

- No new access roads shall be constructed.
- The total length of the existing access road system is approximately 2,400 feet. 1,550 feet of existing "Class 3" access road and 850 feet of existing "Class 4" access road.
- Portions of the 1,550 feet of existing "Class 3" access road may require "Class 3" reconstruction before use.
- Portions of the 850 feet of existing "Class 4" access road may require "Class 4" reconstruction before use.
- Two "Earth Berms" are located on the access road and shall be reinstalled at a location designated by the Sale Administrator.

G. OTHER -

- The Red Oak cord volume contains a high percentage of sawlog and sawbolt size material.

SPECIES, PRICE & ESTIMATED VOLUME INFORMATION				
SPECIES	4" ROUNDWOOD (CORDS)	WHOLE-TREE (CORDS)	SAWLOGS (MBF)	MINIMUM TOTAL SPECIES PRICE
Mixed HW	4,585	XXX	XXX	\$62,356.00
Red Oak	915	XXX	XXX	\$15,006.00
Aspen	175	XXX	XXX	\$3,185.00
TOTALS	5,675	XXX	XXX	\$80,547.00

The Mixed HW volume contains approximately 30% Red Maple, 20% Sugar Maple, 15% Basswood, 15% Black Ash, 10% White Birch, 5% Yellow Birch, 3% White Ash and 2% Balsam Fir.

TRACT 12-15 (FIRST BUCK SWAMP) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Harvest unit 1 has seed tree harvest prescription with an estimated average residual basal area of 28ft².
- Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 3ft².

B. SEASONAL RESTRICTIONS -

- All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- In harvest unit 1, fell all non-marked red maple, sugar maple, basswood, black ash, white birch, yellow birch, white ash, balsam fir, red oak, and aspen stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
- In harvest unit 2, fell all red maple, sugar maple, basswood, black ash, white birch, yellow birch, white ash, balsam fir, red oak, and aspen stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- In harvest unit 1, reserve and leave undamaged all marked stems; and all white pine, white spruce, and white cedar stems.
- In harvest unit 2, reserve and leave undamaged all white pine, white spruce, and white cedar stems.
- In both harvest units, reserve and leave undamaged all advanced sub-merchantable red oak and white pine regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
- Up to nine landing locations are permitted as designated.

F. ACCESS AND ROADS -

- The total length of the access road system is approximately 19,700 feet. Approximately 11,500 feet of existing access road and 8,200 feet of new access road.
- Portions of the entire 11,500 feet of existing access road may require "Class 3" reconstruction.
- The entire 8,200 feet of new access road will require "Class 3" new construction.
- Six "Freeze Down Crossings" shall be constructed as designated.
- A portion of the access road system utilizes a winter snowmobile trail.
- A segment of new construction will be located on a power transmission line right-of-way. Use extreme caution on this portion of the access. Contact the Sale Administrator for further information.

The Mixed HW volume contains approximately 42% Red Maple, 21% Sugar Maple, 15% Basswood, 10% White Birch, 7% Ash, 3% Yellow Birch, and 2% Misc.

TRACT 08-15 (OLD NEW TIMES) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Harvest unit 1 has an all-aged improvement thinning harvest prescription with an estimated average residual basal area of 9ft² within designated canopy gaps.
- Harvest unit 2 has an all-aged improvement thinning harvest prescription with an estimated average residual basal area of 84ft²
- Harvest unit 3 has a clear-cut harvest prescription with an estimated average residual basal area of 15ft².

B. SEASONAL RESTRICTIONS -

- All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- In harvest unit 1, fell all aspen, red maple, white birch, yellow birch, ash, sugar maple, basswood, ironwood, balsam fir, and oak stems within the double orange designated canopy gaps. Skid and haul all felled stems that meet the product and utilization standards as per product bid. Contact the Sale Administrator for further information.
- In harvest unit 2, fell all aspen, balsam fir, ironwood, and marked species stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
- In harvest unit 3, fell all aspen, red maple, white birch, ash, sugar maple, basswood, ironwood, balsam fir, yellow birch, and black spruce stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- In harvest unit 1, reserve and leave undamaged all white spruce, white pine, and cedar stems within the double orange designated canopy gaps.
- In harvest unit 2, reserve and leave undamaged all non-marked stems.
- In harvest unit 3, reserve and leave undamaged all red oak, white spruce, white pine, and cedar stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- In harvest unit 3, "Slashing Maintenance" is required.
- All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
- One skid trail "Freeze Down Crossing" shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
- Up to four landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -

- The total length of the access road system is approximately 13,200 feet. Approximately 7,700 feet of existing access road and 5,500 feet of new access road.
- The entire 7,700 feet of existing access road will require "Class 3" reconstruction.
- The entire 5,500 feet of new access road will require "Class 3" new construction.
- Portions of the existing and new roads may require freeze down before use.
- Two "Earth Berms" shall be installed at locations designated by the Sale Administrator.

G. OTHER -

- Note skidding distances.
- In harvest unit 1, the boundaries of the canopy gap harvest areas are designated with double orange stripes.
- Internal boundaries between selection harvest areas (units 1 and 2) and clear-cut harvest area (unit 3) are marked with double orange stripes.
- The access road and landing locations are not marked in the field. The Sale Administrator will locate, identify, and paint/flag these in during the pre-operations meeting.

TRACT 9-15 (SPRUCE RIVER ISLANDS) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Clear-cut harvest prescription with an estimated average residual basal area of 1ft2.

B. SEASONAL RESTRICTIONS -

- For short-wood/cut-to-length operations where sheared stems are limbed, topped, and processed at the stump prior to product forwarding, no harvesting operations shall be permitted from April 1st to July 1st. An estimated 40% of the total harvest area (lowlands) shall be limited to frozen ground conditions or unusually dry conditions only. Contact the Sale Administrator for further information.
- For conventional whole-tree or pole-length skidding and slashing operations where sheared stems are whole-tree or pole-length drag skidded and slashed at the landing, harvesting operations are limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- Fell, skid, and haul all aspen, white birch, red maple, sugar maple, and balsam fir stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- Reserve and leave undamaged all white spruce stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- "Slashing Maintenance" is required for all harvest units.
- All harvesting operations during non-frozen ground conditions shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
- No "Whole-tree Product" utilization during non-frozen ground harvesting conditions.
- Three skid trail crossings shall be constructed as designated. All equipment operation and skidding in these portions of the sale area shall be limited to these crossings.
- Up to six landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -

- The access road is gated.
- The total length of the access road system is approximately 20,600 feet. Approximately 15,600 feet of existing access road and 5,000 feet of new access road.
- Portions of the 15,600 feet of existing access road may require minimal "Class 2" reconstruction.
- The entire 5,000 feet of new access road will require 500 feet of "Class 3" new construction and 4,500 feet of "Class 4" new construction. Portions will require substantial freeze down before use. One "Freeze Down Crossing" shall be constructed as designated.

- Reserve and leave undamaged all white pine stems and all advanced sub-merchantable white pine regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- "Complete Vegetation Maintenance" is required for all species excluding white pine.
- Up to five landing locations shall be identified during the pre-operations meeting.
- Landing locations will be restricted to the existing road system.

F. ACCESS AND ROADS -

- No new access roads shall be constructed.

G. OTHER -

- Protect designated survey monuments as directed by the Sale Administrator.
- A winter snowmobile and summer ATV trail is located within the harvest unit.
- Steep terrain exists in the eastern portion of the harvest unit adjacent to the Minong Flowage.
- Underground utilities are located within the harvest unit adjacent to Chipmunk Hollow Road and Cranberry Narrows Road.
- This sale is located in a very popular recreational lakes area with many diverse public interests. Operations will be highly visible and may attract special awareness. Contractors are encouraged to take the necessary steps to be as courteous and considerate as possible throughout all phases of operations.

TRACT 06-15 (LAST TRIP) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 8ft².
- Harvest unit 2 has an all-aged improvement thinning harvest prescription with an estimated average residual basal area of 70ft².

B. SEASONAL RESTRICTIONS -

- All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- In harvest unit 1, fell all aspen, red maple, white birch, ash, sugar maple, basswood, ironwood, and tamarack stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
- In harvest unit 2, fell all aspen, white birch, and ironwood stems; and all marked species stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- In harvest unit 1, reserve and leave undamaged all white spruce, white pine, balsam fir, yellow birch, and red oak stems.
- In harvest unit 2, reserve and leave undamaged all non-marked species stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- In harvest unit 1, "Slashing Maintenance" is required.
- All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
- Landing locations will be restricted to product decking on the existing road system.

F. ACCESS AND ROADS -

- No new access roads shall be constructed.
- Two options for access are provided: (1) east off East Copper Mine Road in Douglas County or (2) west off Highway 27 through Sawyer and Bayfield Counties where access has been secured by Douglas County. Note road access distances on the map. Both access options are existing, utilize a winter snowmobile trail, and will require minimal "Class 4" reconstruction and freeze down before use. Contact the Sale Administrator for further information.

G. OTHER -

- Note skidding distances.
