

DOUGLAS COUNTY TIMBER SALE PROSPECTUS NOTICE OF SEALED BIDS

October 20, 2015

Forest Stewardship Council™ (certificate #SCS-FM/COC-00083G-S)
The Mark of Responsible Forestry – FSC 100%

Sustainable Forestry Initiative® (certificate #NSF-SFIS-1Y943)
Promoting Sustainable Forest Management

The Douglas County Forest, Parks and Recreation Committee will receive sealed bids for the purchase of the designated stumpage on the enclosed tracts until 5:30 p.m. Tuesday, October 20, 2015 at the Douglas County Forestry Department, 9182 East Hughes Avenue, P.O. Box 211, Solon Springs, WI 54873. Bids will be opened and read at 6:00 p.m. Tuesday, October 20, 2015 at the Forestry Department Headquarters, 9182 East Hughes Avenue, Solon Springs, WI 54873.

Douglas County will award Contracts to the acceptable highest bidder pending verification and approval of each winning bid. In the event of tie bids, the successful bidder will be determined by the toss of a coin by the acting Chairperson of the Douglas County Forest, Parks, and Recreation Committee. No late bids will be considered. No bid will be considered from bidders who are in non-compliance with any current timber sale Contract with Douglas County, are delinquent in their financial obligations to Douglas County, are involved with a pending timber theft or trespass with the County, or from a bidder whose bidding privileges have been either temporarily or indefinitely revoked by the County.

Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County. For further information, bid forms, maps, or a sample Contract; please contact the Douglas County Forestry Department at (715) 378-2219.

NOTICES:

Daily Telegram – September 29, and October 9 & 13, 2015

Northwoods Shopper – October 12, 2015

I. BIDDING: It is the responsibility of the bidder to inspect; evaluate the stumpage, examine the locations, investigate field conditions, and check Contract requirements for each tract prior to bidding. Bidders should contact the “Prepared By” individual at (715) 378-2219 on the enclosed tracts for detailed information regarding each tract. Submission of bid reflects that the bidder has inspected the tract and clearly understands and agrees to all Contract conditions and requirements herein.

Bids for individual tracts must each be submitted on a standard “Douglas County Forestry Department Bid for Advertised Timber” form, indicating correct tract number, and be presented in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)”. An online version of the bid form reducing the chances for errors is also available at www.douglascountywi.org/forestry. Forms must be completed legibly and correctly in their entirety with all requested information required for bid consideration.

Bids must be submitted separately for each tract by indicating the advertised species, the advertised species product volume, a per product bid price for each species advertised, a total bid value for each species and product advertised, and a total tract bid value for all species and products advertised using the corresponding locations on the bid form.

Considered bids must meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed.

Bids below the minimum advertised total tract value for each species and product listed, the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

The use of an off-highway-vehicle (ATV or snowmobile) on routes or areas closed to motorized use must be approved by the Douglas County Forestry Department prior to occurrence or the operator is subject to penalty as provided by County Ordinance. If granted, permission will be authorized for pre-bidding inspection purposes only and operators shall operate in a safe, responsible, and environmentally friendly fashion. Contact the Department at (715) 378-2219 for further information.

II. BID GUARANTEE BOND: A bid guarantee for a minimum of 10-percent of the total tract bid value must accompany each bid for an individual tract as a bid guarantee bond, payable to Douglas County Forestry Department.

The bid guarantee bond must be in the form of cash, cashiers check, certified check, money order, bank draft, personal check, or business check unless otherwise specified by the County; must be covered by sufficient funds in the account on which it is drawn once submitted to the County, and remain in effect until the Contract is executed by all parties. The County reserves the

right to investigate sufficient funds coverage on any bid guarantee bond provided. In the event that the bid guarantee bond is not covered by sufficient funds, the bidder will be forbid from being awarded the Contract.

The bid guarantee bond will be held by the County until replaced by the successful bidder's performance bond. Bid guarantee bonds will be returned to unsuccessful bidders.

Failure by the successful bidder to provide the County with the mandatory executed Contract of sale, performance bond, current certificates of insurance, and current SFI training certificate equivalent to those conditions provided below within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

III. PERFORMANCE BOND: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a performance bond in the amount of 20-percent of the total purchased tract value. Such a performance bond shall be submitted to the County for approval in the form of cash bond, written performance bond (surety bonds will not be accepted), or irrevocable letter of credit. The County reserves the right to limit the form of acceptable performance bond. The Purchaser must indicate on the bid form what form of performance bond will be provided to the County.

In the event that a cash performance bond is indicated on the bid form, the bid guarantee bond will be deposited immediately and applied towards the performance bond. The balance of the cash performance bond is to be provided by the successful bidder pursuant to those conditions provided above.

In the event that a written performance bond or irrevocable letter of credit is indicated on the bid form, the successful bidder will provide the County a written performance bond (surety bonds will not be accepted) or irrevocable letter of credit issued by a bank or insurance company which is a member of the Federal Reserve System or insured by the Federal Deposit Insurance Corporation pursuant to those conditions provided above. The written performance bond or irrevocable letter of credit shall have an expiration date of no less than 30 calendar days past the sale expiration date.

Failure by the successful bidder to provide the County with the mandatory amount and form of performance bond equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

IV. LIABILITY INSURANCE: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of insurance from the insurer(s) of the successful bidder or their agents certifying coverage to the limit of \$500,000.00 per occurrence and \$1,000,000.00 per aggregate. Such certificate shall name the County as an additional insured and shall be submitted to the County for approval of the insurer(s), the amount, and the form. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

V. WORKERS' COMPENSATION INSURANCE: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of insurance verifying workers' compensation coverage or proof of exemption from such coverage as provided by law. Such written certificate or verification shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or written verification or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance for workers' compensation coverage or exemption from such coverage as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VI. SFI TRAINING STANDARD: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall

receive a valid certificate of completion for the current Wisconsin Sustainable Forestry Initiative (SFI) training standards or comparable certification training standards of different States (depending on the successful bidder's address of its principle place of business) as approved by the Forest Industry Safety & Training Alliance (FISTA) which can be contacted at 1-800-551-2656. Such certificate shall be in the name of the individual responsible for signing the Contract on behalf of the successful bidder, or the president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder; and shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine training records itself.

Failure by the successful bidder to provide the County with the mandatory certificate of completion for the current SFI training standards as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VII. CONTRACT EXECUTION: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive the original Contract with all required information completed with the original signature of a president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder.

Failure by the successful bidder to provide the County with the Contract as indicated above or with an incomplete, illegible, or incorrect Contract within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VIII. PAYMENT SCHEDULE: Payment of the initial advance stumpage payment or lump sum payment, is required prior to the commencement of any Contract operations other than road and landing construction activities. Removal of any products prior to receipt of the initial advance stumpage payment or lump sum payment by the County will be treated as harvested without the County's consent or permission and subjects the Purchaser to civil and/or criminal penalties provided under Douglas County Ordinance #7.6.

The second and subsequent increment installment payments will be due to the County at the point the value of all products removed from the sale reaches 75-percent of the credit on deposit. In no event will payments due be made by the Purchaser to the County more than 15 calendar days from the date of invoice. The County reserves the right to place additional payment requirements on the Purchaser to protect its best interests or those best interests of the public.

The following plan is used by the County to determine the increment schedule required on the enclosed tracts, unless otherwise specified by the County:

Total Contract Purchase Value	Increment Schedule
Lump Sum	100% Payment or Per Harvest Unit (See Tract Specs)
UP to \$5,000.00	100% Payment
\$5,000.01 to \$10,000.00	50% Payment
\$10,000.01 to \$150,000.00	10% Payment
\$150,000.01 and OVER	5%(2),10%(9) Payment

IX. PRODUCT STANDARDS: Standard advertised products are as follows:

- 4" Roundwood Product - A tree, log or stick with a minimum of one 100-inch stick to a 4-inch top diameter.
- Whole-tree Product - All or any woody material from the sheared butt stump of all 2-inch and greater DBH trees to the tip of the tree, including all logs, sticks and branches originating from any stem associated with the tree.
- Softwood Sawlog Product - A tree, log or stick 9-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal "C" net scale greater than or equal to 50% of gross scale for the log.
- Hardwood Sawlog Product - A tree, log or stick 10-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal "C" net scale greater than or equal to 50% of gross scale for the log.

X. VOLUME AND WEIGHT STANDARDS: The enclosed volumes/weights of products by tract are estimates. The County provides no warranty or guarantee as to the species, product type, quality, quantity, or condition. The bidder is responsible for making these determinations and bidders should inspect and evaluate the timber contained in the enclosed tracts prior to bidding. Standard advertised volume/weight measures are as follows:

- A standard cord is a volume of stacked wood products including air space occupying 128 cubic feet.

- A standard MBF is a volume of wood products totaling 1,000 board feet. MBF volume shall be determined using the Scribner Decimal “C” log rule.
- A standard ton is a unit of weight measure equal to 2,000 pounds (907.18 kilograms).

XI. ACCESS: The Purchaser is required to complete all road construction requirements for the enclosed tracts. Location of all road, transportation, and access routes, including associated infrastructure components, for the enclosed tracts are designated by the County and are limited to what is displayed on the maps and in the Contract conditions. The County does not conduct road appraisals. All road and infrastructure construction cost estimates and actual expenses are the responsibility of the Purchaser and bidders should inspect and evaluate these based on Contract requirements and field conditions prior to bidding.

XII. EXTENSIONS: It is expressly understood by the bidder that Contract extensions are not guaranteed and full performance on a Contract is expected prior to the initial expiration date.

XIII. COMMENCEMENT OF OPERATIONS: Operations may not commence on any tract before all Contract execution, insurance, SFI training, financial, and additional required conditions have been successfully met by the Purchaser and approved by the County.

XIV. RECEIPT OF REQUIREMENTS: The bidder and/or successful bidder bears all responsibility for postal or delivery delays outside of the County’s control for all requirements to be received by the County prior to bid consideration and/or Contract execution, including but not limited to; the bid, the bid guarantee bond, the performance bond, liability insurance, workers’ compensation insurance, SFI training standard, the Contract, payments, and all other correspondence, documents, and requirements.

XV. DIRECT SALES: Periodically Douglas County will offer direct stumpage sales. Direct sales are available on a first come, first served basis with the sale offered at or above the total appraised value with no percentage reductions, according to the WDNR Timber Sale Handbook. Please contact the Douglas County Forestry Department at (715) 378-2219 for direct sale availability and/or additional information.

XVI. IRRESPONSIBLE BIDDER: A bidder deemed by the County to be an irresponsible bidder may be refused the opportunity to bid upon or obtain Douglas County timber sales for a pre-determined set time period as determined by the County or indefinitely as deemed in the best interest of the County.

XVII. FOREST CERTIFICATION: The Douglas County Forest, including the areas encompassed by the enclosed tracts, is certified to the standards of the Forest Stewardship Council™ (FSC certificate #SCS-FM/COC-00083G-S) and the Sustainable Forestry Initiative® (SFI certificate #NSF-SFIS-1Y943). Forest products harvested from the Douglas County Forest may be delivered to the destination facility as “FSC™ and/or SFI® certified” as long as the Contractor hauling the forest products is chain-of-custody (COC) certified or covered under a COC certificate from the destination facility. The Purchaser assumes all responsibility for maintaining COC after leaving the area encompassed by any individual tract.

XVIII. EAB QUARANTINE: As of August 2013, all of Douglas County has been placed under a Wisconsin Department of Agriculture, Trade, and Consumer Protection (DATCP) and United States Department of Agriculture (USDA) quarantine for Emerald Ash Borer (EAB). Quarantine compliance, including rules and regulations regarding the transport and utilization of ash products, is the full responsibility of the Purchaser. For additional information on the quarantine, including compliance agreements, please contact DATCP at 608-224-4573 and/or the USDA-APHIS at 608-231-9553.

XIX. TRUCK HAULING INFORMATION: The number of Douglas County townships that have developed or are in the process of developing additional policies in the form of regulations to protect their investments in and limit damage caused by heavy equipment to their local township roads continues to increase. The Douglas County Forestry Department has taken an active role in working with these townships in an attempt to alleviate concerns. The Department believes that their intent is not to restrict harvesting and subsequent hauling of timber, but a response to repetitive and inappropriate use by heavy trucks and equipment. Hauling Contractors need to be aware that public relations are vital to their business and inconsiderate and inappropriate actions reflect poorly on all of us in the forest industry.

All required permits and conditions for use of any public roadways other than those managed by the Douglas County Forestry Department are the responsibility of the Purchaser to obtain, keep current, and comply with. The County bears no responsibility or assures guaranteed use of any public roadway outside of its scope of authority used for the purpose of accessing any of the enclosed tracts and any additional requirements, restrictions, conditions, or terms enacted by any roadway authority are the

responsibility of the Purchaser. The County recommends contacting the appropriate roadway authority prior to bidding on any of the enclosed tracts.

Below are the town chair contact information for each township and one village that contain Douglas County forest and special use land within their boundaries. Contacts for the Douglas County Highway Department and the Forestry Department are also included. Bidders should refer to this information as they prepare bids for the enclosed tracts. This information is up-to-date and current at the time of printing this prospectus only, please contact the town/village, Sale Administrator, or see the "Official E-Directory" link on the Douglas County website www.douglascountywi.org for updates and/or additional information.

TO DOUGLAS COUNTY FOREST, PARKS, AND RECREATION COMMITTEE:

Submitted in response to the notice of Timber Stumpage for Sale published in the Daily Telegram on September 29, October 9, & 13, 2015 and the Northwoods Shopper on October 12, 2015, I hereby submit the following bid for the advertised timber stumpage to be cut and sold from Douglas County lands described as follows:

– See reverse side of form for instructions on how to complete –

A	B	C	D	E	F	G	H
SPECIES	Estimated Volume in 4" Cords	Bid Price Per 4" Cord	Estimated Volume in Whole-tree Cords	Bid Price Per Whole-tree Cord	Estimated Volume in Sawlogs MBF	Bid Price Per Sawlog MBF	Total Bid Value by Species & Product
Total Tract Bid Value							

Enclosed is a Bid Guarantee Bond drawn payable to Douglas County Forestry Department to accompany this bid as required, in the amount of:

Bid Guarantee Bond Amount 10% of the Total Tract Bid Value	
--	--

In the form of: Cash Business/Personal Check Cashier's/Certified Check Money Order

If declared the successful bidder for this tract, I agree to execute a Contract of sale, furnish a satisfactory performance bond amounting to 20-percent of the total tract bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date or prior to the commencement of any operations.

If declared the successful bidder for this tract, indicate whether you will be providing a cash performance bond, an irrevocable letter of credit, or a written performance bond (surety bonds will not be accepted).

Cash Performance Bond Irrevocable Letter of Credit or Written Performance Bond

Bids will be awarded based on the total tract bid value, providing all individual bids meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed; in addition to all other requirements being met. Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County.

Instructions on how to complete the Bid Form

- (1) Enter the individual tract number at the top right of the Form.
- (2) Enter the tract's advertised species, product volumes, and bid amounts in the table as follows:
 - (a) For Ticket Scale Tracts:
 - Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
 - Column B - If bidding on advertised 4" Roundwood Cords, list Estimated Volume in 4" Roundwood Cords from the Timber Sale Map per Species.
 - Column C - If bidding on advertised 4" Roundwood Cords, enter your Bid Price Per 4" Roundwood Cord per Species.
 - Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
 - Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
 - Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
 - Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
 - Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
 - Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.
 - (b) For Lump Sum Scale Tracts:
 - Write the words "LUMP SUM" once in column A (under Species).
 - Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

* For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.
- (3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.
- (4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.
- (5) Mark the type of organization or entity that you are bidding on behalf of.
- (6) At the bottom of the Form, print your name, your title, the organization's name you are bidding on behalf of, your affiliated organization's or your address, your contact phone number (please include multiple numbers if appropriate), and email address.
- (7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.
- (8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked "**Sealed Timber Bid Tract (include tract number)**" and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

– The Bid Form MUST BE completed in its entirety –

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

In the form of: Cash Business/Personal Check Cashier's/Certified Check Money Order

If declared the successful bidder for this tract, I agree to execute a Contract of sale, furnish a satisfactory performance bond amounting to 20-percent of the total tract bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date or prior to the commencement of any operations.

If declared the successful bidder for this tract, indicate whether you will be providing a cash performance bond, an irrevocable letter of credit, or a written performance bond (surety bonds will not be accepted).

Cash Performance Bond Irrevocable Letter of Credit or Written Performance Bond

Bids will be awarded based on the total tract bid value, providing all individual bids meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed; in addition to all other requirements being met. Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County.

Indicate whether this bid is being submitted on behalf of a: Corporation Partnership Sole Proprietorship
(individual)

Representative (<i>Print Name</i>)	Title	Organization Name
Organization (or Representative) Street Address	City	State Zip Contact Phone Number
Email Address	Representative (<i>Signature</i>)	Date

Instructions on how to complete the Bid Form

- (1) Enter the individual tract number at the top right of the Form.
- (2) Enter the tract's advertised species, product volumes, and bid amounts in the table as follows:
 - (a) For Ticket Scale Tracts:
 - Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
 - Column B - If bidding on advertised 4" Roundwood Cords, list Estimated Volume in 4" Roundwood Cords from the Timber Sale Map per Species.
 - Column C - If bidding on advertised 4" Roundwood Cords, enter your Bid Price Per 4" Roundwood Cord per Species.
 - Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
 - Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
 - Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
 - Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
 - Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
 - Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.
 - (b) For Lump Sum Scale Tracts:
 - Write the words "LUMP SUM" once in column A (under Species).
 - Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

* For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.
- (3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.
- (4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.
- (5) Mark the type of organization or entity that you are bidding on behalf of.
- (6) At the bottom of the Form, print your name, your title, the organization's name you are bidding on behalf of, your affiliated organization's or your address, your contact phone number (please include multiple numbers if appropriate), and email address.
- (7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.
- (8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked "**Sealed Timber Bid Tract (include tract number)**" and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

– The Bid Form MUST BE completed in its entirety –

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

 Contract Period: 1 Years Map Scale: 4" = 1 mile Season: Frozen Ground

-- See the Douglas County Timber Sale Contract and reverse side for terms and conditions. --

SPECIES, PRICE & ESTIMATED VOLUME INFORMATION				
SPECIES	4" ROUNDWOOD (CORDS)	WHOLE-TREE (CORDS)	SAWLOGS (MBF)	MINIMUM TOTAL SPECIES PRICE
Aspen	385	XXX	XXX	\$6,083.00
Red Oak	290	XXX	XXX	\$4,118.00
White Birch	265	XXX	XXX	\$3,551.00
Balsam Fir	55	XXX	XXX	\$654.50
TOTALS	995	XXX	XXX	\$14,406.50

The White Birch volume contains approximately 60% White Birch, 32% Red Maple, 5% Black Ash & 3% Basswood. The Balsam Fir volume contains approximately 70% Balsam Fir and 30% White Spruce.

TRACT 10-15 (MOOSE LAKE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Harvest unit 1 has an overstory removal harvest prescription with an estimated average residual basal area of 1ft2.
- Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 4ft2.

B. SEASONAL RESTRICTIONS -

- In both harvest units, all harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- In harvest unit 1, fell, skid, and haul all aspen, red oak, white birch, red maple, black ash, basswood, and balsam fir stems that meet the product and utilization standards as per product bid.
- In harvest unit 2, fell, skid, and haul all aspen, white birch, red maple, black ash, balsam fir, and white spruce stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- In harvest unit 1, reserve and leave undamaged all white pine stems and all advanced regeneration.
- In harvest unit 2, reserve and leave undamaged all white pine, red pine, jack pine, and tamarack stems; and all advanced sub-merchantable balsam fir, white spruce, white birch, and tamarack regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- In harvest unit 1, all harvesting operations shall be limited to short-wood/cut-to-length processor and forwarder operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller buncher felling equipment (hot saw type or similar) is prohibited.
- In harvest unit 2, all harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
- In harvest unit 1, operations shall minimize to the greatest extent possible any damage to advanced regeneration. The sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas.
- "Slashing Maintenance" is required for harvest unit 2.
- In harvest unit 1, one skid trail crossing shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
- Up to six landing locations are permitted as designated.

F. ACCESS AND ROADS -

- No new access roads shall be constructed.
- The total length of the existing "Class 3" access road system is approximately 2,640 feet. Portions may require minimal reconstruction before use.
- One "Freeze Down Crossing" shall be constructed as designated.
- Two "Earth Berms" shall be installed as designated.

G. OTHER -

- 1-year term of contract.
- The Red Oak cord volume contains approximately 35% sawlog size material.

Aspen	290	XXX	XXX	\$4,292.00
TOTALS	1,610	XXX	XXX	\$18,944.00

The Mixed HW volume contains approximately, 44% Red Maple, 20% Sugar Maple, 14% Basswood, 10% White Birch, 9% Black Ash & 3% Misc species.

TRACT 35-14 (SEASON OF CHANGE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 1ft².
- Harvest unit 2 has a shelter-wood harvest prescription with an estimated average residual basal area of 45ft².

B. SEASONAL RESTRICTIONS -

- No harvesting operations shall be permitted from May 15th to October 15th.

C. TREES DESIGNATED FOR CUTTING -

- In harvest unit 1, fell all aspen, red maple, white birch, ash, sugar maple, basswood, ironwood, and balsam fir stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
- In harvest unit 2, fell all non-marked aspen, red maple, white birch, ash, sugar maple, basswood, ironwood, yellow birch, and balsam fir stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- In harvest unit 1, reserve and leave undamaged all red oak, yellow birch, cedar, white spruce, white pine, red pine, and elm stems.
- In harvest unit 2, reserve and leave undamaged all cedar, white spruce, white pine, red pine, elm, and marked species stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- "Slashing Maintenance" is required for all harvest units.
- All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
- One skid trail "Freeze Down Crossing" shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
- Four landing locations are permitted as designated.

F. ACCESS AND ROADS -

- No new access roads shall be constructed.
- The total length of the existing access road system is approximately 3,300 feet.
- Portions may require minimal "Class 3" reconstruction before use.
- Portions may require minimal freeze down before use.
- The Bounty Road is a County Forest Road and winter snowmobile trail.

G. OTHER -

- Note skidding distances.

Mixed HW	2,175	3,055	XXX	\$31,161.00
TOTALS	2,175	3,055	XXX	\$31,161.00

The Mixed HW-volume contains approximately 26% Basswood, 21% Sugar Maple, 20% Red Maple, 17% Red Oak, 8% Ash, 5% Aspen and 3% Misc.

TRACT 25-15 (KILLZONE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 11ft².
- Harvest unit 2 has a seed tree harvest prescription with an estimated average residual basal area of 33ft².

B. SEASONAL RESTRICTIONS -

- In harvest unit 1, all harvesting operations shall be limited to frozen ground conditions only.
- In harvest unit 2, all harvesting operations are not restricted by season or time of the year on an estimated 80% of the harvest area (uplands) and shall/may be limited to frozen ground conditions or unusually dry conditions only on an estimated 20% of the harvest area (lowlands).

C. TREES DESIGNATED FOR CUTTING -

- In both harvest units, fell all non-marked red oak, sugar maple, red maple, basswood, aspen, white birch, black ash, white ash, white spruce, ironwood, cherry, and miscellaneous species stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- Reserve and leave undamaged all green marked stems; and all yellow birch, elm, and white pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- "Slashing Maintenance" is required for both harvest units.
- Landing locations shall be identified during the pre-operations meeting.
- Access road system may be utilized for product decking.

F. ACCESS AND ROADS -

- The total length of the existing "Class 3" access road system is approximately 6,500 feet.
- The first 4,000 feet will require "Class 2" upgraded construction.
- A 200 foot portion of the existing road shall be abandoned and relocated requiring "Class 2" new construction. The abandoned segment shall be blocked with "Earth Berms" and "Scattered Blockage Debris" as designated by the Sale Administrator.
- Two "Freeze Down Crossings" shall be constructed as designated.
- One permanent "Rock Ford Crossing" shall be constructed. Please see contract attachment.
- Three permanent "Culvert Crossings" shall be constructed as designated. Please see contract attachment.
- An "Earth Berm" is located on the access road and shall be replaced by "Scattered Blockage Debris" upon sale completion. Berm removal is recommended during non-frozen ground conditions.

G. OTHER -

- WDNR water crossing permit has been secured by the County for the rock ford crossing. All permit conditions for crossing installation shall be successfully met. Contact the Sale Administrator for further information.

C. TREES DESIGNATED FOR CUTTING -

- Fell all non-marked sugar maple, red maple, aspen, white birch, black ash, white ash, ironwood, cherry, and miscellaneous species stems; and all non-marked greater than 8-inch DBH red oak, yellow birch, and basswood stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- Reserve and leave undamaged all green marked stems; all elm, white spruce, and white pine stems; and all less than 8-inch DBH red oak, yellow birch, and basswood stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- "Complete Vegetation Maintenance" is required.
- Access road system may be utilized for product decking.
- One landing location is permitted as designated.

F. ACCESS AND ROADS -

- The total length of the access road system is approximately 11,400 feet. Approximately 8,500 feet of existing access road and 2,900 feet of new access road.
- The 8,500 feet of existing access road is comprised of 6,500 feet of "Class 1" road and 2,000 feet of "Class 3" road. Portions may require minimal reconstruction before use.
- The entire 2,900 feet of new access road will require "Class 3" new construction.
- The access road is blocked with "Scattered Blockage Debris".
- "Scattered Blockage Debris" shall be installed upon sale completion a location designated by the Sale Administrator.
- West Crotte Brook Road is a County Forest Road.

TRACT NUMBER 18-15

SALE NUMBER

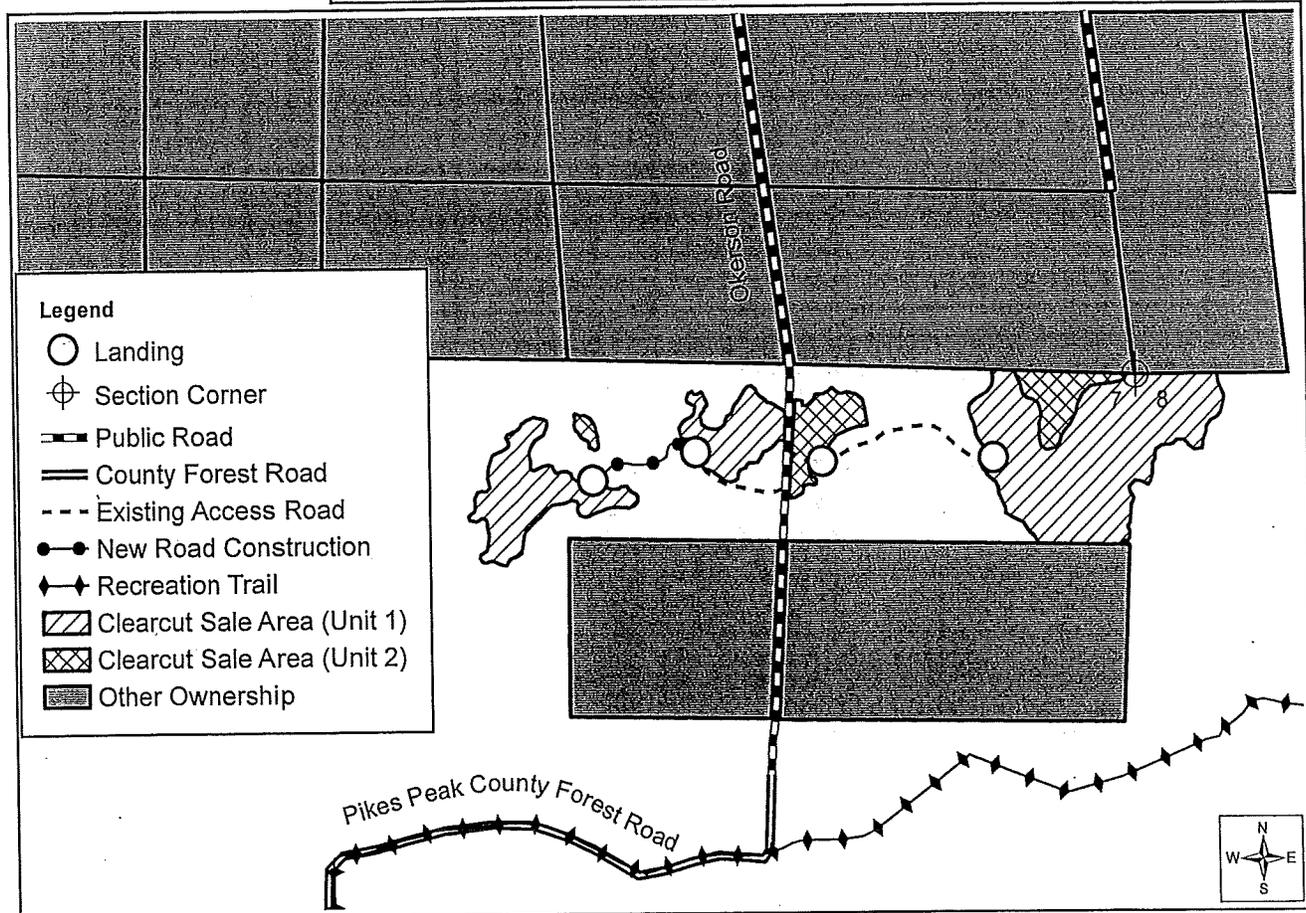

Prepared By: Rick Matlack Legal: Sec 7&8 T46N - R12W
 Sale Name: Okerson Ash Town: Hawthorne Topography: Flat
 Scale Method: Ticket Scale Acres: 64 Harvest Units: 5 Soils: Peat/Muck
 Contract Period: 2 Years Map Scale: 4" = 1 mile Season: Frozen Ground

-- See the Douglas County Timber Sale Contract and reverse side for terms and conditions. --

SPECIES, PRICE & ESTIMATED VOLUME INFORMATION				
SPECIES	4" ROUNDWOOD (CORDS)	WHOLE-TREE (CORDS)	SAWLOGS (MBF)	MINIMUM TOTAL SPECIES PRICE
Ash	2,010	3,220	XXX	\$16,422.00
TOTALS	2,010	3,220	XXX	\$16,422.00

The Ash volume contains approximately 90% Black Ash, 3% Red Maple, 2% Aspen, 2% Balsam Fir, 1% White Birch, and 2% Misc.

TRACT 18-15 (OKERSON ASH) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 16ft².
- Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 1ft².

B. SEASONAL RESTRICTIONS -

- All harvesting operations shall be limited to frozen ground conditions only.
- All road construction operations shall be limited to non-frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- In harvest unit 1, fell all black ash stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
- In harvest unit 2, fell all aspen, white birch, red maple, and all miscellaneous hardwood species stems; and all balsm fir, white spruce, and black spruce stems that contain at a minimum, one 4" Roundwood Product. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- In harvest unit 1, reserve and leave undamaged all non-black ash species stems.
- In harvest unit 2, reserve and leave undamaged all red pine, white pine, and cedar stems; and all balsm fir, white spruce, and black spruce stems that do not contain at a minimum, one 4" Roundwood Product.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- In harvest unit 1, minimize machine operations on the root systems of all reserve species, especially white cedar. In areas with dense pockets of white cedar, reserve and leave undamaged all cut species stems to protect the white cedar stems.
- In harvest unit 2, "Slashing Maintenance" is required for all hardwood stems.
- In harvest unit 2, spruce slash shall remain within the areas where these species was harvested.
- Four landing locations are permitted as designated.

F. ACCESS AND ROADS -

- The total length of the access road system is approximately 3,500 feet. Approximately 2,550 feet of existing "Class 3" access road and 950 feet of new access road.
- Portions of the existing access road system may require minimal "Class 3" reconstruction before use.
- The entire 950 feet of new access road will require "Class 3" new construction.
- All motorized access shall be from the north via Okerson Road. Access from the south utilizing Pikes Peak County Forest Road (snowmobile trail) is not permitted at any time.
- An "Earth Berm" shall be installed at a location on the western access road as designated by the Sale Administrator.
- "Scattered Blockage Debris" shall be installed at a location on the eastern access road as designated by the Sale Administrator.

G. OTHER -

- Due to the lowland/wetland site characteristics of these stands, each and every favorable cold-weather opportunity during the term of contract should be taken full advantage of to maximize operational opportunity for this harvest.

The Mixed HW volume contains approximately 49% Red Maple, 43% White Birch, 4% Red Oak, 2% Sugar Maple & 2% Black Ash. The Balsam Fir volume contains approximately 70% Balsam Fir, 27% White Spruce and 3% Black Spruce.

TRACT 28-15 (HUDACEK'S CORNER) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Clear-cut with reserves harvest prescription with an estimated average residual basal area of 10f2.

B. SEASONAL RESTRICTIONS -

- No harvesting operations shall be permitted April 1st to June 30th. Please note that lowland portions of some of the harvest units may not be operable during non-frozen ground conditions.

C. TREES DESIGNATED FOR CUTTING -

- Fell, skid, and haul all red maple, white birch, aspen, red oak, sugar maple, black ash, balsam fir, white spruce, and black spruce stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- Reserve and leave undamaged all white pine, red pine, and tamarack stems; and all advanced sub-merchantable regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- "Slashing Maintenance" excluding desirable advanced sub-merchantable regeneration, is required.
- Sheared stems shall be limbed and topped at the stump prior to product skidding or forwarding.
- Up to seven landing locations are permitted as designated.

F. ACCESS AND ROADS -

- The total length of the access road system is approximately 13,647 feet. Approximately 12,947 feet of existing access road and 700 feet of new access road.
- The entire 12,947 feet of existing access road will require "Class 3" reconstruction.
- The entire 700 feet of new access road will require "Class 3" new construction.
- A culvert crossing currently exists on the access road and shall be replaced with an upgraded permanent "Culvert Crossing" as designated. Please see contract attachment for new culvert installation requirements. Contact the Sale Administrator for further information on removal and replacement requirements.
- A "Stump Berm" or "Rock Berm" shall be installed at a location designated by the Sale Administrator.

C. TREES DESIGNATED FOR CUTTING -

- Fell, skid, and haul all aspen, white birch, red maple, spruce, sugar maple, ash, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- Reserve and leave undamaged all red oak, elm, red pine, white pine, and cedar stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- "Slashing Maintenance" is required.
- Up to two landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -

- The total length of the access road system is approximately 5,900 feet. Approximately 4,300 feet of existing access road and 1,600 feet of new access road.
- The entire 4,300 feet of existing access road will require "Class 3" reconstruction.
- The entire 1,600 feet of new access road will require "Class 3" new construction.
- One "Freeze Down Crossing" shall be constructed as designated.
- An "Earth Berm" shall be installed at a location designated by the Sale Administrator.

SALE NUMBER:

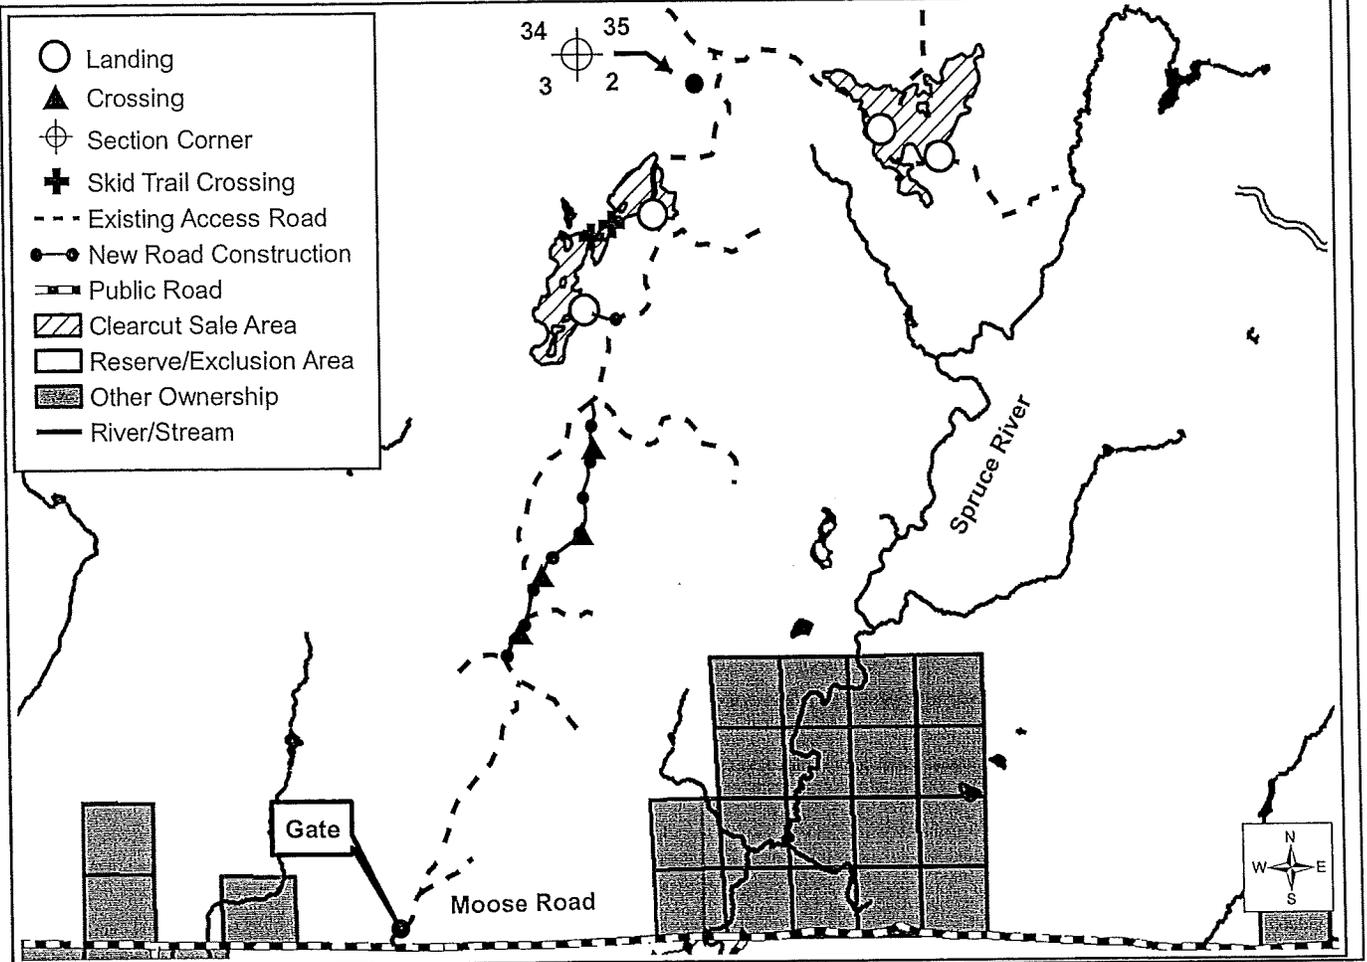

Prepared By: Jim Latvala Legal: Sec 35 T45N - R15W Sec 2 & 3 T44N - R15W
 Sale Name: SRGMA Phase III Town: Summit/Dairyland Topography: Sloping Hills
 Scale Method: Ticket Scale Acres: 119 Harvest Units: 2 Soils: Sandy Loam
 Contract Period: 2 Years Map Scale: 1.5" = 1 mile Season: Seasonal (see reverse)

-- See the Douglas County Timber Sale Contract and reverse side for terms and conditions. --

SPECIES, PRICE & ESTIMATED VOLUME INFORMATION				
SPECIES	4" ROUNDWOOD (CORDS)	WHOLE-TREE (CORDS)	SAWLOGS (MBF)	MINIMUM TOTAL SPECIES PRICE
Mixed HW	2,290	3,105	XXX	\$33,534.00
Aspen	1,015	1,240	XXX	\$18,972.00
Black Spruce	145	195	XXX	\$2,632.50
TOTALS	3,450	4,540	XXX	\$55,138.50

The Mixed HW volume contains approximately 42% Red Maple, 26% White Birch, 15% Sugar Maple, 14% Black Ash & 3% Yellow Birch. The Black Spruce volume contains approximately 54% Black Spruce, 40% White Spruce & 6% Balsam Fir.

TRACT 31-15 (SRGMA PHASE III) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Clear-cut harvest prescription with an estimated average residual basal area of 4ft².

B. SEASONAL RESTRICTIONS -

- For short-wood/cut-to-length operations where sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding, no harvesting operations shall be permitted April 1st to June 30th. Please note that an estimated 20% of the total harvest area (lowlands) shall be limited to frozen ground conditions or unusually dry conditions only.
- For conventional whole-tree or pole-length skidding and slashing operations where sheared stems are whole-tree or pole-length drag skidded and slashed at the landing, harvesting operations are limited to frozen ground conditions only.
- All road construction and crossing construction operations shall be limited to non-frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- Fell, skid, and haul all red maple, white birch, aspen, sugar maple, black ash, yellow birch, balsam fir, white spruce, and black spruce stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- Reserve and leave undamaged all cedar, elm, basswood, and red oak stems; and all advanced sub-merchantable regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- "Slashing Maintenance" excluding desirable advanced sub-merchantable regeneration, is required.
- No "Whole-tree Product" utilization during non-frozen ground harvesting conditions.
- Two skid trail crossings shall be constructed as designated. All equipment operation and skidding in these portions of the sale area shall be limited to these crossings.
- Up to four landing locations are permitted as designated.

F. ACCESS AND ROADS -

- The access road is gated.
- The total length of the access road system is approximately 24,000 feet. Approximately 18,000 feet of existing access road and 6,000 feet of new access road.
- The entire 18,000 feet of existing access road will require "Class 2" reconstruction.
- The entire 6,000 feet of new access road will require "Class 2" new construction.
- Four permanent "Culvert Crossings" shall be constructed as designated. Please see contract attachment.

G. OTHER -

- Note substantial road building requirements requiring adequate road building equipment and capability. Contact the Sale Administrator for further information.

TRACT 39-15 (RAIL GRADE OAK) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Seed tree harvest prescription with an estimated average residual basal area of 19ft².

B. SEASONAL RESTRICTIONS -

- No harvesting operations shall be permitted from April 1st to July 31st.

C. TREES DESIGNATED FOR CUTTING -

- Fell, skid, and haul all non-marked red maple, red oak, sugar maple, aspen, white birch, and balsam fir stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- Reserve and leave undamaged all green marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- "Slashing Maintenance" is required for both harvest units.
- Two landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -

- No new access roads shall be constructed.
- Portions of the existing, non-recreational trail, access roads may require minimal "Class 3" reconstruction before use.
- A significant portion of the access road utilizes the Gandy Dancer Recreational Trail, a summer ATV and winter snowmobile trail owned by the State of Wisconsin.
- Operation of highway vehicles and hauling on the Gandy Dancer Recreational Trail requires a permit issued by the WDNR. Securing this permit shall be the responsibility of the Purchaser. The County is available to assist the Purchaser with securing the permit upon request. The Purchaser shall be responsible for meeting all permit terms and conditions. Prospective Purchasers are encouraged to contact the Sale Administrator prior to bidding on this tract for further information on permit availability and details.

Mixed HW	XXX	XXX	155	\$12,245.00
TOTALS	1,205	XXX	155	\$26,584.50

Mixed HW cord volume contains approximately 26% Sugar Maple, 22% Yellow Birch, 16% Red Maple, 13% Red Oak, 10% Basswood, 10% Black Ash and 3% White Birch.
 See contract specifications for Mixed HW sawlog volume species percentages.

TRACT 45-15 (SUMMIT TRAIL OSR) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -

- Overstory removal harvest prescription with an estimated average residual basal area of 1ft².

B. SEASONAL RESTRICTIONS -

- All harvesting shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -

- Fell, skid, and haul all sugar maple, yellow birch, red maple, red oak, basswood, black ash, and white birch stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- Reserve and leave undamaged all white spruce stems; and all advanced sub-merchantable regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- All harvesting operations shall be limited to short-wood/cut-to-length processor and forwarder operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller buncher felling equipment (hot saw type or similar) is prohibited.
- The sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas.
- Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
- Up to three landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -

- No new access roads shall be constructed.
- The total length of the existing access road system is approximately 4,640 feet.
- Portions may require minimal "Class 2" reconstruction before use.
- Existing culvert crossings shall be protected and functionally maintained at all times.

G. OTHER -

- The Mixed HW sawlog volume contains approximately 28% sugar maple, 24% red oak, 18% yellow birch, 11% basswood, 9% red maple, 9% black ash, and 1% white birch.
- Sawlog products shall be sorted and decked as required. See terms of the contract.

B. SEASONAL RESTRICTIONS -

- All harvesting operations are not restricted by season or time of the year.

C. TREES DESIGNATED FOR CUTTING -

- In harvest unit 1, fell all aspen, red maple, white birch, ash, sugar maple, jack pine, basswood, ironwood, balsam fir, and oak stems; all orange marked red and white pine stems; and all greater than 14-inch DBH red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
- In harvest unit 2, fell all aspen, red maple, white birch, ash, sugar maple, jack pine, basswood, ironwood, balsam fir and non-marked red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
- In harvest unit 3, fell all aspen, balsam fir, red maple, ash, basswood, ironwood, white birch, red pine, jack pine, and sugar maple stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -

- In harvest unit 1, reserve and leave undamaged all white spruce stems, all non-marked white pine stems, and all non-marked less than 14-inch DBH red pine stems, and all advanced sub-merchantable regeneration.
- In harvest unit 2, reserve and leave undamaged all white pine and white spruce stems; and all marked red pine stems.
- In harvest unit 3, reserve and leave undamaged all oak, cherry, elm, white pine, and white spruce stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -

- In harvest units 1 and 2, "Slashing Maintenance" is required.
- The sale administrator will layout and flag in two skid trails as designated at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails for the respective harvest units.
- All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
- Five landing locations are permitted as designated.

F. ACCESS AND ROADS -

- No new access roads shall be constructed.
- The total length of the existing access road system is approximately 9,000 feet.
- Portions may require minimal "Class 3" reconstruction before use.

G. OTHER -

- Note skidding distances.
- The Red Pine cord volume contains a large percentage of sawlog material and pole quality products.
